Perfect for the chic man-bun style too

JAPAN BALM

for Men with Wavy Hair

Model: Yasuhisa Kawabata (HEAD QUARTERS)

How to use for a men's glossy, wavy style

How to
Style video

First, wet your hair and lightly pat with a towel. Take 1-2 pearl sizes and rub it between your hands until warm and oily to apply easily. Once oily, massage from the ends to the rest of your hair. Apply little by little adding more if needed for a perfect finish. Once applied, comb with a rough tooth comb to create texture. For a man-bun, tie at any level. Ideal for wavy hair with movement as the balm does not harden.

Y.S.PARK MADE IN JAPAN JAPAN BALM

A multi-purpose balm made exclusively from natural ingredients for hair and skin.

A citrus base with a hint of woody notes, unfurling a refreshing citrus herb scent.

What is JAPAN BALM?

The main ingredient is "mokurou" which is an ingredient for Bintsuke Abura (an oil used for mage's) by Maiko and Sumo wrestlers. It is known as "Japan Wax" in Europe and America and has been used since the Edo era. Based on this traditional wax, we modified the formula to suit modern hairstyles for a moist and shiny look with movement.

Mokurou ingredient
"Japanese wax tree seeds"

- No Mineral Oils
- No Alcohol
- No Artificial Fragrances
- No Surfactants
- No Artificial Colourants
- No Preservatives

- ✓ Moisturises dry hair caused by hairdryers and hair irons. Great for haircare during the dry seasons.
- ✓ Medium hold between hair oil and wax. Recommended for a natural finish.
- ✓ Contains only Japan wax and vegetable oil. Can be used as a hand-cream or lip balm due to no unnecessary ingredients.

Gives the hair a shiny, wet look with a natural hold creating a stylish, trendy appearance.

How to achieve a natural, glossy, wet look

Take a pearl sized amount and rub it between your hands until warm and oily to apply easily. Apply from the middle section to the ends focusing on the tips. For fringe styling, use the leftover balm on your hands and lightly massage it in. If you apply too much in the root, it may get greasy. Any excess product can be used as hand-cream.
